

REHABILITATION IN THE MANAGEMENT OF HIP FRACTURE PATIENTS

Register [here](#) for the free webinar on: June 9, 2021 12 – 1:30 PM EST

Dr. KATIE SHEEHAN: Role of early mobilisation in outcomes of hip fracture surgery

Dr. Katie Sheehan is a Senior Lecturer in Rehabilitation and Health Services Research at King’s College London, UK. She is a physiotherapist and health services researcher with experience from Ireland, Canada, and the UK. Dr. Sheehan is Chair of the Hip Fracture Recovery Research Special Interest Group of the FFN and UK Falls and Fragility Fracture Audit Programme Scientific and Publications Committee

Dr. KATHLEEN MANGIONE: Can older adults post hip fracture achieve recommended guidelines for physical activity?

Dr. Mangione is a professor of Physical Therapy at Arcadia University, Glenside, PA. Her research is focused on exercise with older adults. She recently completed a multicenter trial examining exercise after hip fracture and is currently examining interventions for frail older adults after hospital discharge. Dr. Mangione is a Fellow of the Gerontological Society of America, a member of the FFN and was involved in the recent APTA Clinical Practice Guideline for patients with hip fracture

Dr. PATROCINIO ARIZA-VEGA: Activehip+: Health education and telerehabilitaci3n for patients with hip fracture and their family caregivers

Dr. Ariza-Vega, PT, OT, PhD is an assistant professor at the Physical Therapy Department, University of Granada, Spain. She conducted her research in Denmark (Hvidovre University Hospital, Copenhagen, Canada (Centre for Hip Health and Mobility, Vancouver) and Sweden (Sahlgrenska University Hospital, Gotenburg). She is an activity leader of the European project, ActiveHip+: Activating Older Adults with a Hip Fracture, funded by European Institute of Technology Health

PANEL DISCUSSION: OPPORTUNITIES FOR CANADA

Our international speakers will be joined by 3 Canadian researchers to discuss the opportunities for improving rehabilitation for hip fracture patients in Canada

Dr. LAUREN BEAUPRE (Moderator)

Dr. Beaupre’s research interests are in outcome and health services research for people with musculoskeletal conditions who are recovering from orthopaedic surgery. Dr. Beaupre is a physical therapist and epidemiologist, a professor and Dr. David Magee Endowed Chair in Musculoskeletal Research in the Department of Physical Therapy at the University of Alberta

Dr. MAUREEN ASHE

Dr. Ashe is an Associate Professor on faculty in the Department of Family Practice at The University of British Columbia, a physiotherapist, and Canada Research Chair in Community Mobility. Dr. Ashe’s research is focused on developing and testing community interventions to support long lasting health behavior change to promote autonomy and social connectedness in daily lives

Dr. KATHY MCGILTON

Dr. McGilton’s research focus is on care of persons with cognitive impairment, particularly in identifying interventions and models of care delivery that lead to effective patient outcomes. Dr. McGilton is a Senior Scientist at the Toronto Rehabilitation Institute-University Health Network and Professor (Status Only) at the Lawrence S. Bloomberg Faculty of Nursing, University of Toronto
